Ask about delivery discounts for materials when ordering a fill bin and having the product delivered with the fill bin.

Fill Bin Zone Charges - Zone 2 add \$50.00, Zone 3 add \$100, Zone 4 add \$150. Confirm zone with Sales Staff.

The materials that are in the landscape bin are the responsibility of the customer in possession of the bin. The bins do not have lids. If you are concerned about neighbours dumping rubbish in the bin, tying a tarp over it at night will help to control what gets put in. If any non-landscape material is in a returned bin there will be a **\$240.00 per ton** charge for the entire weight of the bin & its contents. We will not separate materials, the entire load will be considered nonlandscape material.

PLACEMENT AND USE OF THE BIN

Our landscape bins can be placed in most driveways; this is normally the most convenient location for customers as it is the closest and safest placement to most residential work-sites. If you do not have a driveway or would like the bin placed in another location we will do our very best to accommodate you. If you plan to have the bin placed on a lawn or roadway you may require a permit to do so. Please inquire as to your local regulations and acquire any permits you need before the delivery of your bin. Any fines incurred are the responsibility of the customer in possession of the bin at the time. **If you are concerned about damage occurring to any surface a bin is to be placed on, it is recommended the surface be covered with plywood before the delivery of the bin.**

LANDSCAPE BINS MUST NOT BE OVERLOADED OR OVER FULL! A landscape bin that is not completely full but has material above the top edges of the side boards will not be picked up. A landscape bin that is flat and level with the top edge of the side boards is full. Please ensure that on the day of pick-up there is no material above the top edge of the box and all gates and pins are properly locked. If the bin is not in this condition the driver will not pick it up and the daily charge of \$50 will be applied until the bin has been properly loaded and removed.

Prices do not include Taxes.
