Our Trusted Dealer Network

Join the Best Way Stone family by connecting with one of our trusted dealers, conveniently located across Ontario, Quebec, the Maritimes, Michigan and Ohio. Our dealers don't just offer products, they bring your vision to life by recommending the perfect solutions, tailored to your unique design and style preferences. Whether you're planning a backyard oasis or a commercial project, our expert dealer network is here to guide you every step of the way.

Partnering with the Right Skilled Contractor

A well-crafted outdoor space begins with a skilled professional. Hiring a qualified hardscaper ensures that your project is executed smoothly and meets the highest standards. When selecting a contractor, consider these important tips:

Ask for references and past work: Review their portfolio to see if their style aligns with your vision.

Verify insurance, licensing, and warranty: Ensure they offer solid protection and guarantees for peace of mind.

Insist on industry-standard installation: Professional contractors should aim to adhere to best practices and guidelines recognized by the industry.

Consider choosing a ProElite Contractor, recognized by Best Way Stone for their commitment to quality craftsmanship. These select professionals work with Best Way Stone products and have a proven track record of delivering exceptional results. You can find our ProElite contractors at bestwaystone.com/find-a-hardscaper.

Professional hardscape contractors will understand the industry standards for installing hardscape products. You can download a copy of these guidelines by visiting masonryandhardscapes.org.

Visit our website to find a dealer near you:

BWS ProElite

**60 YEARS OF
THE BEST
PRODUCTS
BUILT USING
THE BEST
PRACTICES.
THAT'S
THE BEST WAY.**

To Our Valued Customers,

Since 1965, Best Way Stone has proudly stood as an independently owned and operated business built on a foundation of craftsmanship, quality and trust. For more than six decades, we have dedicated ourselves to delivering products that stand the test of time, through style, durability and the relationships we've formed along the way. At Best Way Stone, we believe that every product we produce is a commitment to you.

Being one of the few independently owned precast concrete manufacturers in the industry is more than just a distinction – it's what empowers us to deliver unparalleled service. Our independence ensures we remain flexible and responsive to the evolving needs of our customers, offering innovative solutions without ever compromising on quality.

Whether you're a homeowner transforming your outdoor space or a contractor seeking reliable, high-performance products to exceed client expectations, we're here to help bring your vision to life. Our pavers are backed by our lifetime guarantee, a testament to our unwavering commitment to you.

As we've grown, so too has our dedication to continuous improvement and exceptional service. Each member of our team is united by a shared mission: to provide you with an outstanding experience, built on trust, innovation, and craftsmanship.

Thank you for choosing Best Way Stone. We're here to support you – today, tomorrow, and for many years to come.

Warm regards,
The Best Way Stone Team

We Have a Good Foundation

Manufacturing Leads Design

Hardscaping solutions should be designed to last. So, our philosophy is that manufacturing processes should always influence product design.

Thoughtful Innovation

We've built production facilities and equipped them with manufacturing technology for our own proprietary processes that are engineered specifically to ensure our products are well-planned, well-designed and well-made.

With two state-of-the-art manufacturing facilities, as well as dealers to support you across Ontario, Quebec, the Maritimes, Michigan and Ohio, we're completely independent and able to both hear and respond to your needs.

Best Way Stone's products are designed to be resistant to the elements, meeting or exceeding CSA and ASTM industry standards.

We select the best performing ingredients for our products. Partnering with suppliers who value quality and service first like us.

Our production team carefully inspects each unit of product before it leaves our factory. That commitment to quality is backed by our transferable lifetime guarantee on the structural integrity of our pavers. You can learn more about our transferable lifetime guarantee on our website: bestwaystone.com/warranty.

The Four Elements of a Curated Landscape

Today’s outdoor spaces are designed for living, working and playing, blending form and function to enhance the quality of life. Whether you’re embarking on a complete outdoor transformation or simply adding a new feature, selecting the right products is crucial. At Best Way Stone, we’ve curated a product portfolio that brings together flexibility, style, and performance to help you achieve your vision – no matter the budget or timeline. Our approach ensures that every element works seamlessly together, making the design process both inspiring and manageable.

Here are the four key elements to consider when creating your ideal landscape:

1. Form

Form is the backbone of your design, defining the overall look and feel. Contrast shapes and textures to establish a more rustic or natural topography, or embrace clean lines for a modern appeal. Our versatile product range lets you create distinctive spaces that resonate with your unique style.

2. Scale

Scale is essential to drawing attention and guiding the flow of your landscape. By mixing various sizes of pavers or slabs, you can highlight focal points and create zones of interest. Whether it’s a spacious patio or an intimate garden path, scale helps achieve balance and harmony in your design.

3. Texture

Texture brings your landscape to life adding depth and character. With a wide array of surface finishes to choose from, you can create visual interest by combining different product textures. From smooth and sleek to rugged and tactile, texture lets you make a bold statement while maintaining cohesion across your space.

4. Colour

Colour sets the mood and influences how your outdoor environment is perceived. Lighter tones can make an area feel open and expansive, while darker shades offer coziness and warmth. By thoughtfully mixing colours, you can infuse your space with personality, highlighting key features and creating inviting atmospheres.

Together, these four elements – form, scale, texture and colour – empower you to craft a landscape that’s not only beautiful but also uniquely yours.

At Best Way Stone, we’ve made it easier than ever to blend these principles into your design, ensuring that your outdoor space is a perfect reflection of your vision.

Designer Toolbox

You can add some contrast and design play to your landscape by mixing and matching our product line. Choose from smooth, soft, textured or cobblestone surfaces, light and dark colour blends, small or large slabs and pavers.

Our pursuit of technological advancements provides layers of enriched surfaces and colour, bringing product aesthetics, quality and performance to the next level.

DesignLoc® technology is a two-stage manufacturing process that creates a refined surface while reinforcing a stronger, coarser base. This process enhances durability and reduces the potential for colour fading, ensuring a long-lasting, high-quality finish.

ChromaTec™ is a factory-applied protective surface enhancer that creates a barrier against stains from external elements. This coating not only helps to resist staining but also enhances the vibrancy and colour longevity of the product.

NanoBlast™ is a fine shot-blasting process that exposes specially selected aggregates on the product's surface. Combined with a brushed surface treatment, NanoBlast™ creates a striking textural contrast while delivering a more slip-resistant and comfortable finish.

Explore Best Way Stone's series of products, which provide their own unique advantages.

Classic Series

The Classic Series represents the foundation of timeless design. These products focus on simplicity, durability and functionality. Perfect for budget-conscious projects, the Classic Series delivers reliable performance without unnecessary embellishments – ideal for creating simple clean spaces.

Signature Series

The Signature Series elevates design with superior quality and refined finishes, thanks to Best Way Stone's innovative DesignLoc® technology. These products combine enhanced durability with style, perfectly balancing aesthetics and functionality. Whether you're designing a residential oasis or a commercial space, the Signature Series delivers exceptional detailed results that stand out without compromising practicality.

Premiere Series

Best Way Stone's Premiere Series sets the standard for luxury and innovation. Utilizing advanced technologies like NanoBlast™ and ChromaTec™, this features high-end materials and cutting-edge manufacturing techniques. These premium products deliver unparalleled aesthetics and enhanced performance. Designed for those who seek to create truly remarkable spaces, the Premiere Series is where innovation meets elegance.

SIGNATURE PAVER

PRISMA

The Prisma paver blends timeless aesthetics with a modern twist, ideal for cutting-edge hardscape designs. Its unique shape brings a distinctive geometric flair to landscaping, seamlessly integrating with various contemporary outdoor areas. Elevating projects, the Prisma introduces chic style and dimension.

CARRARA

ULTRA BLACK

STEP

FORMA STEP

Designed for strength and reliability, the Forma Step comes in a clean off-white colour that complements any landscape design. Its robust construction ensures longevity, making it a practical choice for pathways, patios, and garden steps. Its hollow core design makes it light weight and easier to install.

SIGNATURE SLAB

LYRA

Now available in Glacier Creek

The Lyra slab provides both a modern design and a highly detailed surface. Taking advantage of Best Way Stone's DesignLoc surface refinement technology, Lyra provides a contemporary smooth finish, and is offered in a variety of colours.

SIGNATURE SLAB & PAVER

TREVISTA

Available in Autumn Hill

Autumn Hill is now available in our Trevista product line. This warm and inviting shade captures the essence of fall, with a palette blending cream and brown tones to evoke the rich and cozy atmosphere of an autumn landscape.

CLASSIC WALL

STACKER

BEIGE MIX

GREY MIX

ULTRA BLACK

The Stacker block is now available in a non-tumbled classic smooth finish.

PREMIERE SLAB

LYRA NANOBLAST FINISH

Lyra with NanoBlast finish showcases a fine shot-blasting process that reveals specially selected granite aggregates exposed on the surface. Combined with a brushed surface treatment, this advanced finish creates a visually striking textural contrast, enhances slip resistance, and offers a smoother, more comfortable feel.

SIGNATURE PAVER

ECOFLOW PERMEABLE PAVER

EcoFlow delivers a clean, modern and sophisticated aesthetic. Manufactured using DesignLoc technology, the two-step manufacturing process creates a refined top layer while reinforcing a strong, durable base. EcoFlow is designed to have strategic spacer bars that create greater infiltration between units, enabling efficient water drainage.

2025 Lookbook

Whatever your purpose, Best Way Stone brings your vision to life.

A well-designed outdoor space not only adds property value, it also creates a sense of joy every time you return home. Over the past few years, homeowners have found creative ways to build high-impact front entrances and restful backyard retreats that are built to last, so they can be enjoyed during any season.

Hardscaping Accessories

Best Way Stone has curated a collection of accessories to help you finish your outdoor space. This series consists of only the products we know and trust in our landscape designs, so you can trust them in yours too.

JOINT SAND

Evolution Pro Plus 4 polymeric sand is a professional quality product made from specially screened sand and the latest binders high concentration technology. Evolution Pro Plus 4 is a high performance polymeric sand, used in the most demanding projects, for which its unique formulation offers a very fast initial setting, increased resistance to humidity and unrivalled durability.

Available in Beige, Gray and Black

Care & Considerations

Setting a Base

The quality of work put into establishing a solid foundation is vital to the overall performance of your landscape design.

When properly constructed, a solid base foundation helps prevent paver settling, shifting, and water accumulation. Use of edge restraints and jointing sand is recommended as the best practice by the Concrete Masonry and Hardscapes Association.

When choosing and installing jointing sand, please ensure to follow the directions given by the manufacturer.

Colour Distribution

When installing precast concrete products, we recommend you select a mix of materials from several different bundles to ensure a balanced distribution of surface colour textures and colour mixtures.

Always verify colours and products chosen for your concrete landscape project with your contractor or landscape designer prior to installation. Physical or printed colour samples are only representations of the chosen product. If you notice a significant discrepancy, notify us immediately before continuing with your project. Full installation is understood as your acceptance of the product's condition.

Concrete Care

Maintaining the surface of your concrete pavers is essential to their aesthetic. Sealing your concrete pavers can enhance the colour, but it's optional as our pavers are just as durable with or without the addition of sealants. If you plan on sealing your concrete products, always follow the manufacturer's instructions for proper application.

Unfortunately, even materials as durable as concrete can scratch, chip or stain if handled incorrectly. When compacting our pavers, ensure that a rubber membrane is added to protect textured surfaces from potential damage. We recommend the use of a roller tamper when compacting slabs. Use a rubber blade when removing snow from the surface of our pavers to prevent surface scratching and damage. Best Way Stone is not responsible for the damage left by the misuse of compaction or snow removal equipment.

Efflorescence

Efflorescence is a white, powdery substance that can appear on the surface of concrete and it's a naturally occurring process. Efflorescence does not affect the structural integrity or strength of the product and will weather off over time – although special cleaners can be used to speed up its removal.

Choosing a Contractor

Although not required, hiring a qualified contractor makes installing stone a much more efficient and less stressful experience. When hiring a qualified professional we recommend they follow industry standard guidelines.

When hiring a contractor, we recommend collecting project references and samples of previous work. Make sure they offer a comprehensive warranty, and have all the required insurance and licenses. Any contractor will understand the industry standards for installing stone – you can download a copy to these guidelines from the Concrete Masonry & Hardscapes Association.

For more details on industry best practices we recommend you visit **CMHA** for the most up to date information and can put their logo under it.
