**MASONAL THIN STONE IS:**

- Affordable – Comparable in price to artificial stone
- Durable – Real stone that can be rocked and shaped
- Endless Variety of natural stone colours and shapes to choose from
- Local – Quarried and cut in Ontario
- Maintenance Free – Does not deteriorate like cultured or artificial stone

# RUSTIC WILDERNESS COLLECTION

Provincial Grey

Old World

Frontenac

Summer Blend

Our Rustic Wilderness Collection includes a great variety of colours and textures of natural edged limestones laid in gentle flowing lines. We are fortunate to have over 40 different colours of limestones here in Ontario alone. The mostly rectangular stones are reminiscent of old traditional stone buildings when masons split and shaped each piece to fit horizontal rows of stone.

Our Valley Estate Collection blends the beauty of natural stone with the sophistication of crisp detailed lines. Stones are cut to specific combinations allowing masons to tighten joints, lay patterns, and convey an elegance in fine detail. These cut combinations decrease the installation time to make projects go faster and can be installed by someone who doesn't have much masonry skills as other stones require.

# LEDGESTONE COLLECTION

Modern Ledge

Old Rustic Ledge

Rosemount

Oxford Ledge

Valhalla

Our Ledgestone Collection is a mosaic of texture, colour and shade highlighting the creative artistry of a master craftsman. The random patterns of thinly sliced stones takes much time and skill to lay, but the overall impression is breathtaking. The stones come in individual pieces that can be blended to fit limitless patterns and completed by corner pieces that finish the illusion of depth to the stone.

Our Rustic Rubble Collection combines different shapes, sizes and colours of stone into a random collage. With the right mason, or artist, each wall or fireplace transforms into a work of fine art.

# GLACIER MARBLE COLLECTION

Sapphire Blue

Sapphire Blue

Glacier Blue

Our Ontario Marble has outstanding properties that makes it easy to shape and process to make a wide variety of products . From 9 foot long landscape steps, to ½" tiles, the strength and beauty of this marble makes it very desirable in all our product categories. It ranges in colours from sparkling white quartzite to an aquamarine blue all the way to a midnight black.

River Rock

River Rock

The ageless attraction of our Ontario Granites inspire designers who aspire to use our local Canadian Shield in new ways. Our granites range in colours and styles from subtle greys to more traditional black and pinks. Our ashlar's come hand rock'd in pre-cut combinations to simplify installation.

Fieldstone

# STEPS & COPING ACCESSORIES

Granite Steps

Coping

Glacier Marble Steps

We stock steps ranging from 3' – 9' in 5 different materials. Our Glacier Jumbo Flagstone is gauged at 1¼" thick and averages 7 – 12 square feet per piece. We make copings with hand rocked, cut, bull-nosed and flamed edges in any sizes. Our dense limestone and glacier marble make beautiful countertops for your outdoor kitchens. We have huge slabs to custom cut piers, plinths, sills or any other construction detail needs.

10 Sq. Ft. Box

100 Sq. Ft. Box

200 Sq. Ft. Pallet

Our thin veneer products come in a range of containers to meet every project size requirement. The 10 square foot boxes can be moved by two people to restricted spaces, while the 100 square foot box and 200 square foot pallet need a skid steer to move to location.

We also manufacture custom profiles and creative details to help accent doors, windows, corners and openings on your stone project. 95% of our stone products are also made in a full bed (4" thick) veneer to be laid in a traditional bed of mortar.

## THE HISTORY OF MASONAL STONE

Alvin Kuepfer, the creator of Masonal Stone, started 25 years ago with a belief that people still admire the artisan skills of masonry and the beauty of natural stones for modern buildings. Growing up surrounded by skilled Mennonite artisans he quickly honed his art craft, grew his own business, and started cutting natural stones to enhance his intricate projects. The fabrication shop now produces some of the most complex stone accessories in the building industry. From precast refractories, carved detail edging in stone columns, window and door accents, to popular thin natural stone veneers, the shop keeps busy all year round. Masonal Stone has recently invested in growing thin stone veneer products to bring affordable natural stones into any part of your home. For people who love the feel and beauty of real stone, it is the perfect design solution.

Please visit our website [www.masonalstone.com](http://www.masonalstone.com) to see many more stone blends we manufacture, as well as details to help you install thin stone veneer products to meet current building code requirements. All of stones come from local quarries and are cut in Milverton, Ontario. This is essential to assist people building "Green" projects using LEED Certification Standards concerned about the use of sustainable local resources with absolutely no waste in our manufacturing process.
